

OUR PROJECTS

GHG Footprint & Assessments

Project: Bahrain LNG Annual Greenhouse Gas Study (2023-2024)

Location: Bahrain

Client: Bahrain LNG (BLNG) Terminal

Scope:

- GHG emissions quantification.
- GHGs emissions inventory evaluation.
- Emission reduction measures.

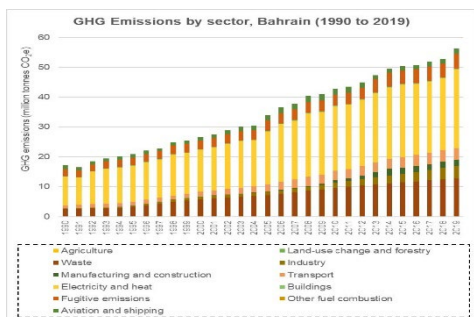

Project: Alba Power Station 5, Block 4 Supplementary ESIA, Climate Change Risk Assessment (2023)

Location: Bahrain

Client: Aluminium Bahrain (Alba)

Scope:

- GHG alternatives analysis.
- Review of the GHG emissions inventory and current emissions estimation methodology.
- Recommendations for further consideration.

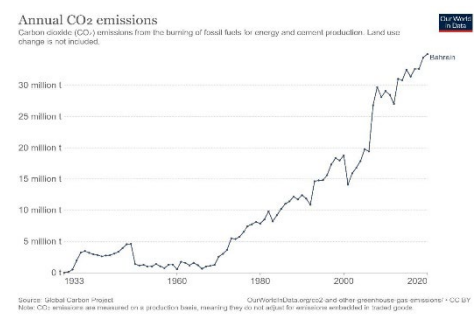

Project: Greenhouse Gas Footprint (GHG) and Baseline for SULB (2022)

Location: Bahrain

Client: SULB

Scope:

- GHG footprint/baseline.
- Scope 1 and Scope 2 emission sources.
- GHGs quantification.
- Metric for annual GHG emission measurement.

Project: Greenhouse Gas (GHG) Footprint and Baseline for Bahrain Steel (2022)

Location: Bahrain

Client: Bahrain Steel

Scope:

- GHG footprint/baseline.
- Scope 1 and Scope 2 emission sources.
- GHGs quantification.
- Metric for annual GHG emission measurement.
